- A related blog post in Japanese: <https://www.flywheel.jp/topics/20200917>

Wantedly: Software Engineer Intern, August 2019 - September 2019

- I improved existing functions of [Wantedly People](#), an HR application, and added new functionalities.

Projects

The top 3 in [ICCAD 2021 CAD Contest](#)

I worked on the code that generates circuits.

Addition of some functionalities to [Firefox](#)

I added additional bookmark properties to Firefox as a school project.

Implementation of TCP/IP protocol with KLab

I implemented TCP/IP protocol in C with mentors and other participants as an internship project.

Additional Activities

Educational Volunteer with Step-up school

I taught English, math, Japanese, and other subjects to elementary and junior high school students from single-parent families who are financially unable to attend a cram school.

Social Volunteer as a member of Awaji area management group

I cleaned up the trash, worked with a non-profit organization to put on an event about books, took care of children after school, and organized playtime with the elderly at a nursing home. I also did many other activities related to the community.

Technical Skills

- Programming Languages: C, C++, Python, OCaml, Haskell, Rust, JavaScript, TypeScript, Scheme, Common Lisp
- Operating System: Linux, macOS, Windows
- Computer Science: Algorithms and Data Structures, Computer Architecture, Operating System, Theory of Computation, Programming Language Theory, Network, Machine Learning

Language Skills

- 2021/12 Duolingo English Test: Overall=125 Literacy=130 Comprehension=130 Conversation=105 Production=90
